PROFILE SUMMARY

Client-focused Web & Flutter Application Developer specializing in building high-performance web platforms and mobile applications that drive business growth and user engagement. Strong expertise in HTML5, CSS3, JavaScript, Bootstrap, jQuery, React.js, Node.js, Flutter, and modern front-end technologies. Highly skilled in responsive design, UI/UX development, API integration, and full project lifecycle management. Proven ability to collaborate effectively with clients and designers, delivering solutions that enhance usability, efficiency, and long-term value.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Business Systems — Sep 2021 – May 2025
JCT College of Engineering and Technology, Coimbatore — CGPA: **7.5**

Higher Secondary Education (Class XII) — Jul 2019 – Apr 2021
GHSS Higher Secondary School, Cheruthuruthy, Thrissur — Score: **76%**

Secondary Education (Class X) — Jun 2018 – Apr 2019
GHSS Higher Secondary School, Cheruthuruthy, Thrissur — Score: **79%**

EXPERIENCE

Web Developer Intern
Skill Safari | Mar 2023 – Sep 2023

- Developed and deployed responsive web applications by cloning popular platforms such as WhatsApp Web and Facebook Web, ensuring cross-browser compatibility.
- Utilized Bootstrap, Java, and React.js to build interactive front-end features
- Improved website performance and responsiveness, achieving faster load times and mobile-friendly layouts.

Web & Flutter Application Developer
Webappzz Technologies | 2026 – Present

- Developed and delivered multiple web applications and Flutter-based mobile apps for UAE and Indian clients, focusing on business automation, client management, scalability, and performance optimization.
- Designed and built responsive websites, landing pages, and professional email templates with strong UI/UX principles and cross-device compatibility.
- Built full-stack applications using React.js, Node.js, MySQL, REST APIs, and WordPress for CMS-driven solutions.
- Deployed and managed applications using modern hosting platforms such as Vercel and Render.
- Utilized tools including Visual Studio Code, Android Studio, Flutter SDK, and Figma for efficient development and design collaboration.
- Integrated AI-powered features and automation tools to enhance user experience and streamline workflows.
- Collaborated directly with clients for requirement gathering, project planning, deployment, and post-launch support.

- Managed the complete project lifecycle including concept planning, UI/UX design (Figma), development, testing, deployment, and ongoing maintenance.

SKILLS

Programming & Development

- Python, JavaScript, React.js, Flutter, HTML, CSS, Bootstrap

Frontend & UI Technologies

- Material UI, Tailwind CSS, Responsive Design, UI/UX Development, Cross-Browser Compatibility

Backend & Database

- Render,Mongo DB, REST APIs, Web Services, MVC Architecture

Frameworks & CMS

- WordPress, React.js, Node.js

Design & Prototyping

- Figma, UI/UX Design, Wireframing, Prototyping

Deployment & Platforms

- Vercel, Render, Cloud Hosting Platforms

Data & Analytics

- Data Analysis, Data Modelling, Tableau, Spreadsheets (Excel/Google Sheets)

Software & Tools

- Visual Studio, Android Studio, Git/GitHub, Flutter SDK

Web & Application Development

- Web Development, Application Development, Mobile App Development, Responsive Design

AI & Automation Tools

- AI Platforms & Automation Tools for Workflow Optimization

Technical Support

- Computer Repair Technician, System Troubleshooting

Professional Skills

- Creativity, Problem Solving, Adaptability

PROJECTS

Phishing Website Detection with Real-Time Email Notification System (Nov 2024 – Feb 2025)

- Developed a phishing detection system with ML algorithms to identify malicious websites.
- Integrated a real-time email notification feature for user alerts.
- Built an Android application using Flutter to extend accessibility.

Stock Market Prediction Using Machine Learning (Feb 2025 – Apr 2025)

- Designed and trained predictive models for stock market trends using supervised ML techniques.

Appointment Calendar for Clinic Staff (Jun 2025)

- Built a responsive web-based calendar system for managing patient appointments.
- Used React.js and Material UI with local Storage persistence to ensure smooth user experience.
- Implemented features like dark mode, doctor/patient filters, and appointment operations.

3D Model Viewer Web Application (Jul 2025)

- Developed a React.js web application to upload and display 3D GLB models.
- Implemented interactive 3D rendering for enhanced visualization.
- Supported model uploads via a user-friendly dashboard.

Flutter PDF Generator Application (2025)

- Developed a Flutter mobile application that generates dynamic PDF documents from user inputs.
- Implemented customizable templates and file export functionality for business use cases.

Business Website Development Project (2026)

- Designed and developed a modern, responsive business website with optimized performance and SEO-friendly structure.
- Applied best UI/UX practices using Figma and implemented the frontend using modern web technologies

---

ACHIEVEMENTS

- Successfully completed a Deloitte Job Simulation on Data Analysis and Forensic Technology.
- Class Topper in the final year project presentation.
- Awarded NCC A Certificate for successful completion of training and examination.
- Attended technical seminars on Cyber Security, Internet of Things (IoT), and Machine Learning.

CERTIFICATES

- React.js Developer Internship Program — *Skill Safari*
- Web Technology Full Stack Using Django — *Edunet*
- Networking Essentials — *CISCO*
- Cybersecurity Essentials — *CISCO*
- Introduction to Data Science — *IBM*
- Encoding–Decoder Architecture — *Google Cloud*
- Introduction to Image Generation — *Google Cloud*
- Data Analytics Job Simulation — *Deloitte*
- Introduction to Flutter
- Introduction to IoT/SQL/ Software Testing
- Robotics and AI for Healthcare
